

THE INDIAN INSTITUTE OF PUBLIC ADMINISTRATION

A BIBLIOGRAPHY ON PUBLIC ENTERPRISES IN INDIA

INDRAPRASTHA ESTATE
RING ROAD
NEW DELHI-1

November 1968

Price : Rs. 3

INTRODUCTORY NOTE

With the important role that Public Enterprises play in the Indian economy considerable discussion goes on about their functioning. There is also considerable interest among students of Economics, Political Science and Public Administration about the problems relating to Public Enterprises. The Institute receives a number of requests for bibliographical guidance on the subject. To meet this increasing demand the Institute had prepared in 1961 a Bibliography on Public Enterprises. This was found quite useful by students of the subject. The Bibliography has now been out of stock for sometime. We also thought it worthwhile to take the opportunity to bring it up-to-date to the extent possible before making it available again. We have been able to include items published up to June, 1966.

It is hoped that this new edition of the bibliography would be found to be useful by students and administrators who are interested in the subject. We shall be grateful for suggestions which could help to make the bibliography a fuller and more useful document.

The work on the original bibliography was done by Shri L. Venketasan. The task of revising it and bringing it up-to-date has been shared by Shri R.C. Mascarenhas and Dr. M.L. Lakhera.

J.N. Khosla
Director

15th November, 1968.
