46.	Indonesia	10	LMI
47.	India	23	LMI
	Sub Total	72	

Least Developed Country

48.	Bangladesh	1	LDC
-----	------------	---	-----

Note:

1. The total number of complaints is more than the number of disputes, as where a single complaint has been filed by a group of members; it has been counted against each member.
2. Low-income economies are defined as those with a GNI per capita, calculated using the World Bank Atlas⁵³ method, of \$1,025 or less in 2015; lower middle-income economies are those with a GNI per capita between \$1,026 and \$4,035; upper middle-income economies are those with a GNI per capita between \$4,036 and \$12,475; high-income economies are those with a GNI per capita of \$12,476 or more.
