

ACKNOWLEDGEMENTS

I convey my sincere thanks and gratitude to my guide Prof. Nand Dhameja, Indian Institute of Public Administration, New Delhi for his valuable guidance, solid advice and continued support in preparation of this dissertation. He was a source of inspiration and tremendous help for timely completion of this dissertation. His deep knowledge about the subject and interest in research was inspiring.

I express my thanks to Department of Telecommunication (DoT), Ministry of Communications and Information Technology, Government of India for sponsoring me to attend the 41st Advanced Professional Programme in Public Administration (2015-16) of the Indian Institute of Public Administration, New Delhi, which gave me an opportunity to pursue this research work.

I am extremely thankful to Prof. K. K. Pandey, Programme Director and Dr. Sachin Chowdhary, Programme Co-Director for providing me the support and encouragement to carry out the present work and study. I am grateful to the staff of APPPA office who gave whole hearted support during the conduct of the programme and made the learning and interactions during the course a memorable event.

I feel indebted to Prof. Aasha Kapur Mehta for the quality inputs provided by her in the stream "Research Proposal and Dissertation Writing". Her painstaking efforts in taking us through past dissertations, highlighting their shortcomings and deficiencies, her inputs on drafting research questions and objectives, and providing us a direction on how to write such dissertations came out handy while finalizing this report.

Lastly, I would like to thank my wife Mrs. Sumitra Jakhar for bearing with me during this research work. The work would not have been possible without the unconditional support and motivation from my wife, and sons, Aman and Aryan who encouraged me to complete the work in time and had been quite cooperative during the whole journey of writing this dissertation report and pursuing this programme.
