

ACKNOWLEDGEMENTS

At the outset, I wish to thank Department of Telecommunication to have nominated me for the 41st Advanced Professional Programme in Public Administration at the prestigious Indian Institute of Public Administration, New Delhi.

I am extremely grateful to the Indian Institute of Public Administration for accepting my proposal to pursue my research on "Electromagnetic Radiations through mobile towers – understanding the debate and policy". This gave me an opportunity to work in the area which is extremely sensitive due to advancement in new technologies.

This dissertation would not have been possible without the invaluable guidance, direction and support from my guide. I sincerely wish to thank Prof. Dolly Arora, who was extremely kind considerate and supportive right from the beginning not only in restructuring the title of the dissertation but also her constant invaluable timely suggestions helped me throughout. She was a tremendous help for completing this dissertation and her deep interest in the research was inspiring.

I would like to express my sincere thanks and gratitude to Dr. T. Chatterjee, Director IIPA, New Delhi. My special thanks to Prof. K. K. Pandey, Programme Director and Dr. Sachin Chowdhry, Programme Co-Director of 41st APPPA, who were very supportive and helped me with their invaluable comments, as I grappled with the conceptualization of my dissertation. I am also very grateful to

each and every member of APPPA faculty and course mates who were always supportive and encouraging.

I also wish to extend my special thanks to the officers in Department of Telecommunications, Telecom Engineering Center, Telecom Enforcement Resource and Monitoring (TERM) cells, BSNL and Department of Science & Technology for providing genuine information for the dissertation.

The work would not have been possible without the unconditional support of my wife, Rachna, daughter, Maithili and son, Tanay who encouraged me to complete the work and put up patiently with me during the process of writing this dissertation and pursuing this programme.

Shrigopal Agrawal

Roll No. 4101

41st APPPA

IIPA, New Delhi
